Concerts

2026

Welcome to St Saviour's season of concerts for 2026

It is a privilege to be able to share this beautiful building with you, both as a very peaceful and reverential space for worship and as a superb venue for the performing arts.

This church has a wonderful acoustic which allows performers to demonstrate their skills to their very best. We also have a most impressive 'Walker' organ and a fine 'Danemann' grand piano.

Most concerts are free of charge, but we welcome donations towards the upkeep of the church and organ. However those concerts **coloured blue** are ticketed events. Individual concert details are available on our website approximately two weeks before each event. Light refreshments are usually offered afterwards.
